

## Select your ring size

We invite you to print this page in real size (without scaling).

In order to ensure the conformity of the baguier, please check that the scale below measures exactly 2 cm:

To determine your size, have one of your ring-type perfectly fitted to the finger on which you will wear your Blanc Iris ring.  
Then place it on the circle where is your ring.

The inner contour of the ring must be aligned with the outer contour of the circle, letting the line appear.

If you hesitate in two sizes, we recommend that you choose the larger one.
